AMAN MULLA

AI Engineer • Backend & AI Systems • RAG & Agentic AI
Maharashtra, India | +91 9730971586 | amanmulla4020@gmail.com | GitHub | LinkedIn

PROFESSIONAL SUMMARY

AI/ML engineer and Computer Science (AI-ML) undergraduate (graduating 2027) with hands-on experience building backend services, data pipelines, and LLM-powered features — including RAG systems and AI agents — across three internships and several projects. Proficient in Python and FastAPI, with experience integrating OpenAI and Gemini APIs, automating data collection with Playwright, and working across MongoDB and PostgreSQL.

TECHNICAL SKILLS

- **Languages & Data:** Python, Java, C++, JavaScript, SQL, Pandas, NumPy
- **AI, GenAI & LLM APIs:** Generative AI, LLMs, AI Agents, RAG, Prompt Engineering, Embeddings, Semantic Search, Model Evaluation, OpenAI API, Gemini API
- **AI Frameworks & Retrieval:** LangChain, LlamaIndex, TensorFlow, PyTorch, Scikit-learn, Hugging Face, RAGAS, ChromaDB, Hybrid/Vector Search
- **Backend & Automation:** FastAPI, REST APIs, Playwright (browser automation & data collection), Webhooks, n8n
- **Databases & Tools:** MongoDB, PostgreSQL, MySQL, SQLite, ChromaDB, Git, GitHub, Docker, Postman, Vercel

EXPERIENCE

AI Drug Discovery Intern
Jul 2026 – Present

PSPM Technologies Pvt. Ltd.

- Support AI/ML-driven computational drug discovery research through Python-based data processing, cleaning, and analysis.

Full Stack Developer Intern
Jan 2026 – Mar 2026

Orgocloud Enterprises Pvt. Ltd. | Hybrid

- Built backend services and REST APIs for a live client web application, working across MongoDB and PostgreSQL.
- Designed AI-powered workflow automations using n8n, including LLM-driven chatbots and automated calling agents integrated with OpenAI and Gemini APIs.
- Built Playwright browser-automation workflows for testing and data collection.

Generative AI Intern
Dec 2025 – Jan 2026

SunBeam Infotech Pvt. Ltd. | Pune, Maharashtra

- Built Generative AI applications and a LangChain-based AI chatbot in Python, using RAG, embeddings, document processing, and live web data retrieval.
- Iterated on retrieval and prompting strategies to improve response relevance and quality.

PROJECTS

BugImpact AI — AI Knowledge Intelligence Platform | link
Python, FastAPI, LangChain, ChromaDB, Hybrid Retrieval, RAGAS, Streamlit

- Built a RAG knowledge platform (FastAPI, LangChain, ChromaDB) with hybrid retrieval, prompt engineering, and embedding optimization to improve answer quality and reduce hallucination.
- Developed a RAGAS-based evaluation pipeline to benchmark retrieval quality and drive systematic prompt and embedding improvements.

WhatsApp AI Automation Platform | link
Python, FastAPI, n8n, OpenAI API, Gemini API, AI Agents, REST APIs, Webhooks, RAG

- Building a WhatsApp automation platform for customer interaction and business workflows using OpenAI and Gemini APIs, AI agents, intent-routing, webhooks, and n8n.
- Designing agent workflows that maintain conversation context and trigger automated business actions.

VANET IDS — Edge-Optimized Federated Intrusion Detection System
Python, TensorFlow, CNN-LSTM, Federated Learning, Pandas, NumPy, SUMO, OMNeT++

- Developed a CNN-LSTM intrusion detection system for vehicular networks (VANETs), using federated learning to train without centralizing participant data.
- Validated the pipeline under realistic traffic using SUMO and OMNeT++ network and mobility simulations.

EDUCATION

B.Tech in Computer Science and Engineering (AI-ML) *Expected 2027*

DKTE Society's Textile and Engineering Institute, Ichalkaranji | CGPA: 8.20

CERTIFICATIONS & ACHIEVEMENTS

- NPTEL (IIT Kanpur): Big Data Computing — Elite, 81%; Programming in R. Wadhwani JobReady (Advanced), 2026.
- 100+ LeetCode problems solved; 8+ Kaggle and 3+ HackerRank Skill Badges (3 verified certificates); multiple national-level AI hackathons.
